- 1 Cut or tear your paper into small pieces. Cut just face shapes from black paper. Triangles and spiky mouths are shapes to use, but you can use your imagination.

- 2 Dilute PVA glue with water so that it reaches a milky consistency (approximately one part water to two parts glue). Apply liberally to the outside of the jar, using an old paintbrush.

- 3 Add your tissue papers to the lantern and flatten them down. Then add another layer of glue and more tissue paper – you do not need to let the glue dry between layers. Finish with a layer of diluted glue for a glossy finish.

- 3 To make a hedgehog, add two little tangs for ears. To make a sheep, glue on a little cotton wool fence. To make a person, add an acorn cap for a hat. Draw on eyes to finish.
