

58 Moldes o Plantillas para elaborar Cajitas

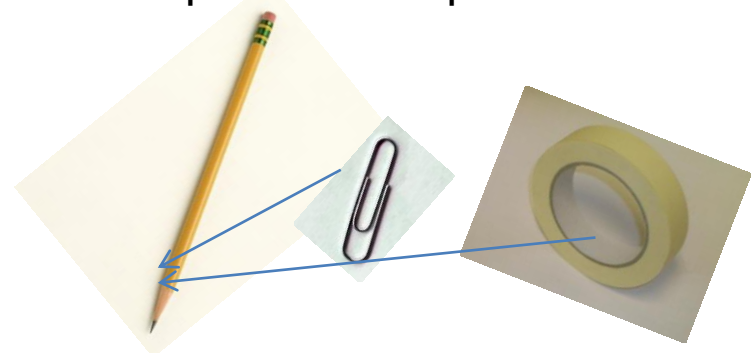

TIP's

Para imprimir estas cajitas, se recomienda utilizar hojas tamaño carta de CARTULINA OPALINA, también puedes utilizar cualquier otro tipo de cartulina lisa o estampada.

Todos los moldes puedes manipularlos, agrandarlos o hacerlos más pequeños, dependiendo del tamaño de cajita que desees elaborar ; para hacer esto solo das clic sobre la imagen de la plantilla, posicionas el cursor sobre el circulito que se encuentra de la parte inferior derecha del molde y te aparecerá un iconito que es una doble flechita, ahí das clic y presionando la tecla Shift estiras o encojes el molde.

Para unir o pegar las cajitas se recomienda utilizar Pritt.

Para marcar algunas líneas por donde debes doblar, utiliza una regla limpia y un Buril (la herramienta que se utiliza en repujado), si no tienes esa herramienta puedes sustituirla por una pluma ya sin tinta con punta redondeada o afianzando un clip en la parte de abajo de un lápiz con cinta Masking Tape y con la parte redondeada del clip es con lo que remarcas las líneas

Cajita SNACK

Cajita 2 RECTANGULAR

Cajita 3 CUADRADA

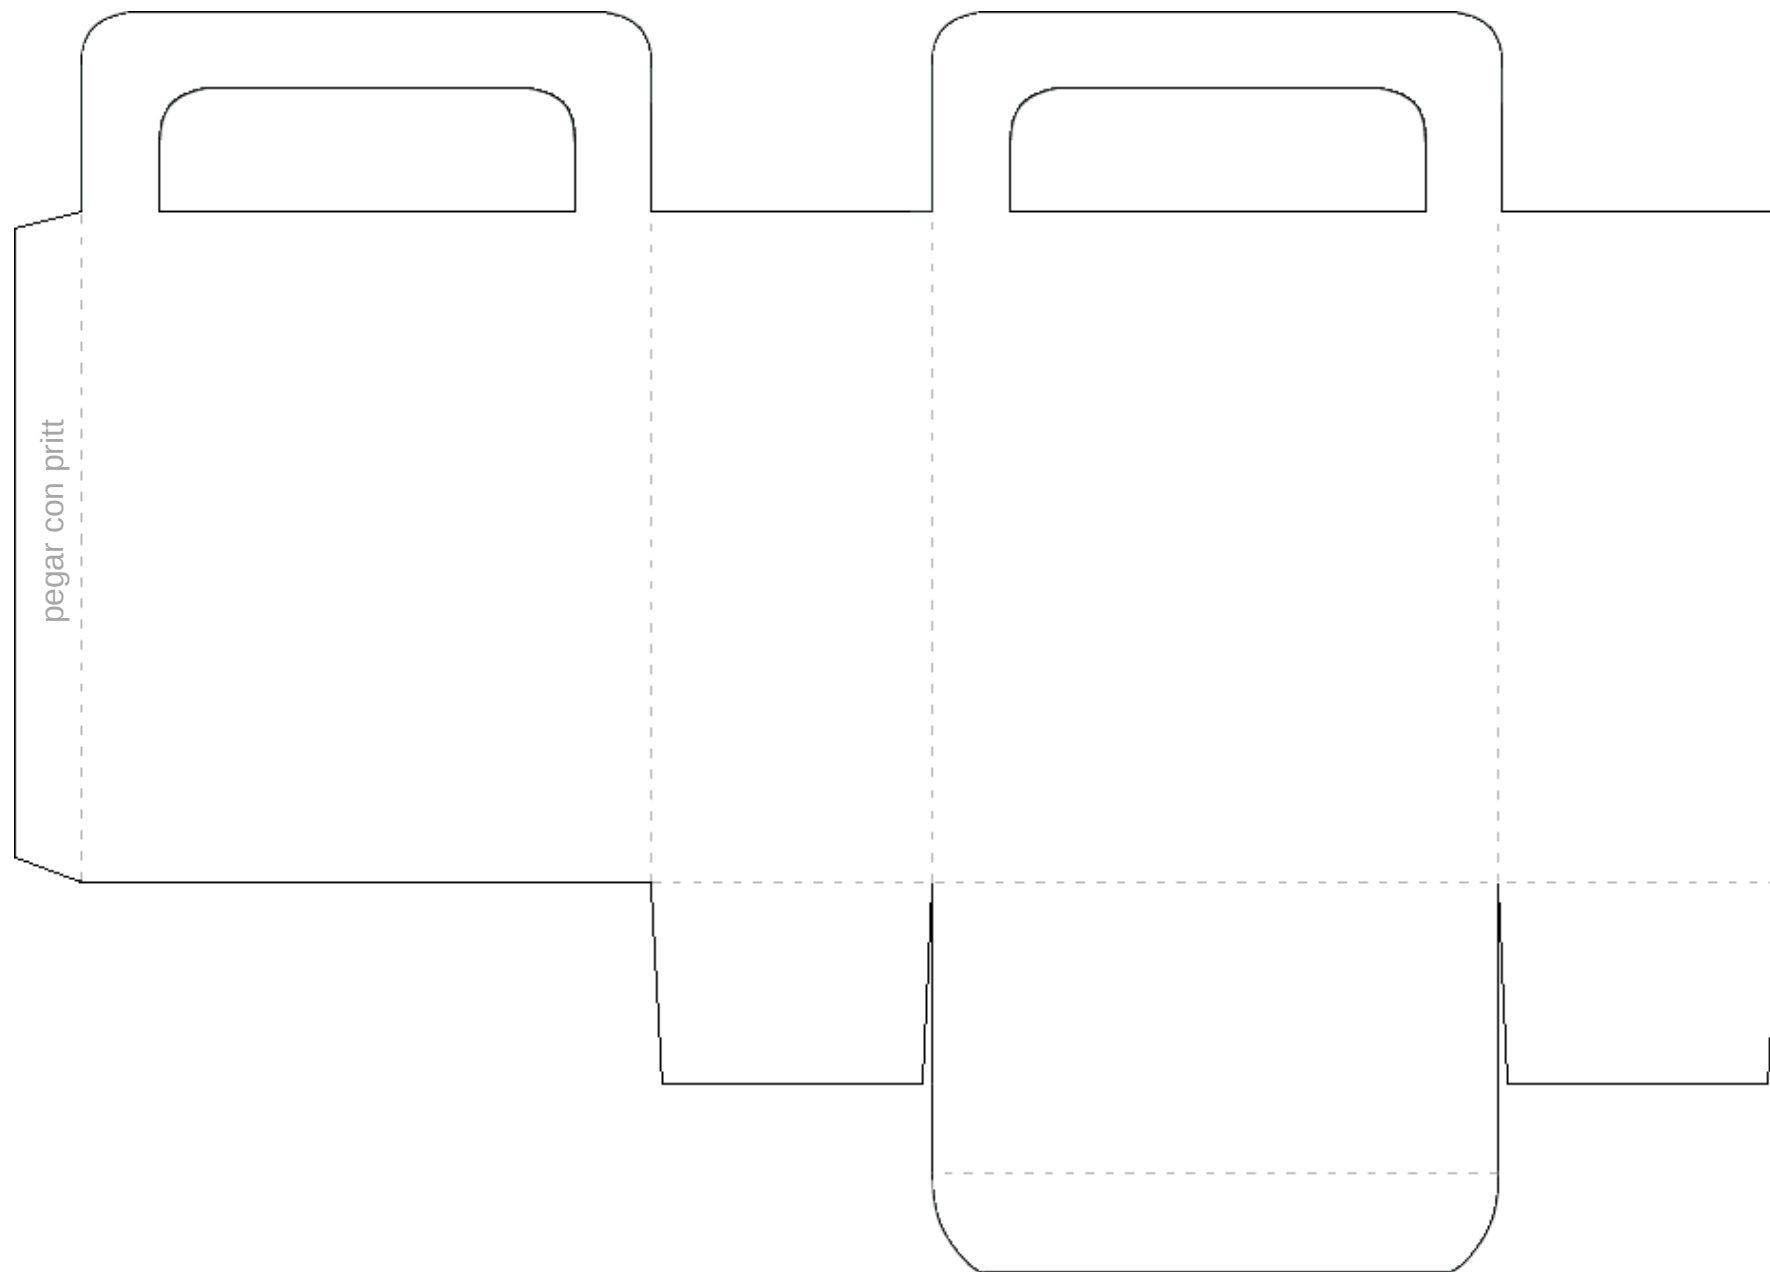

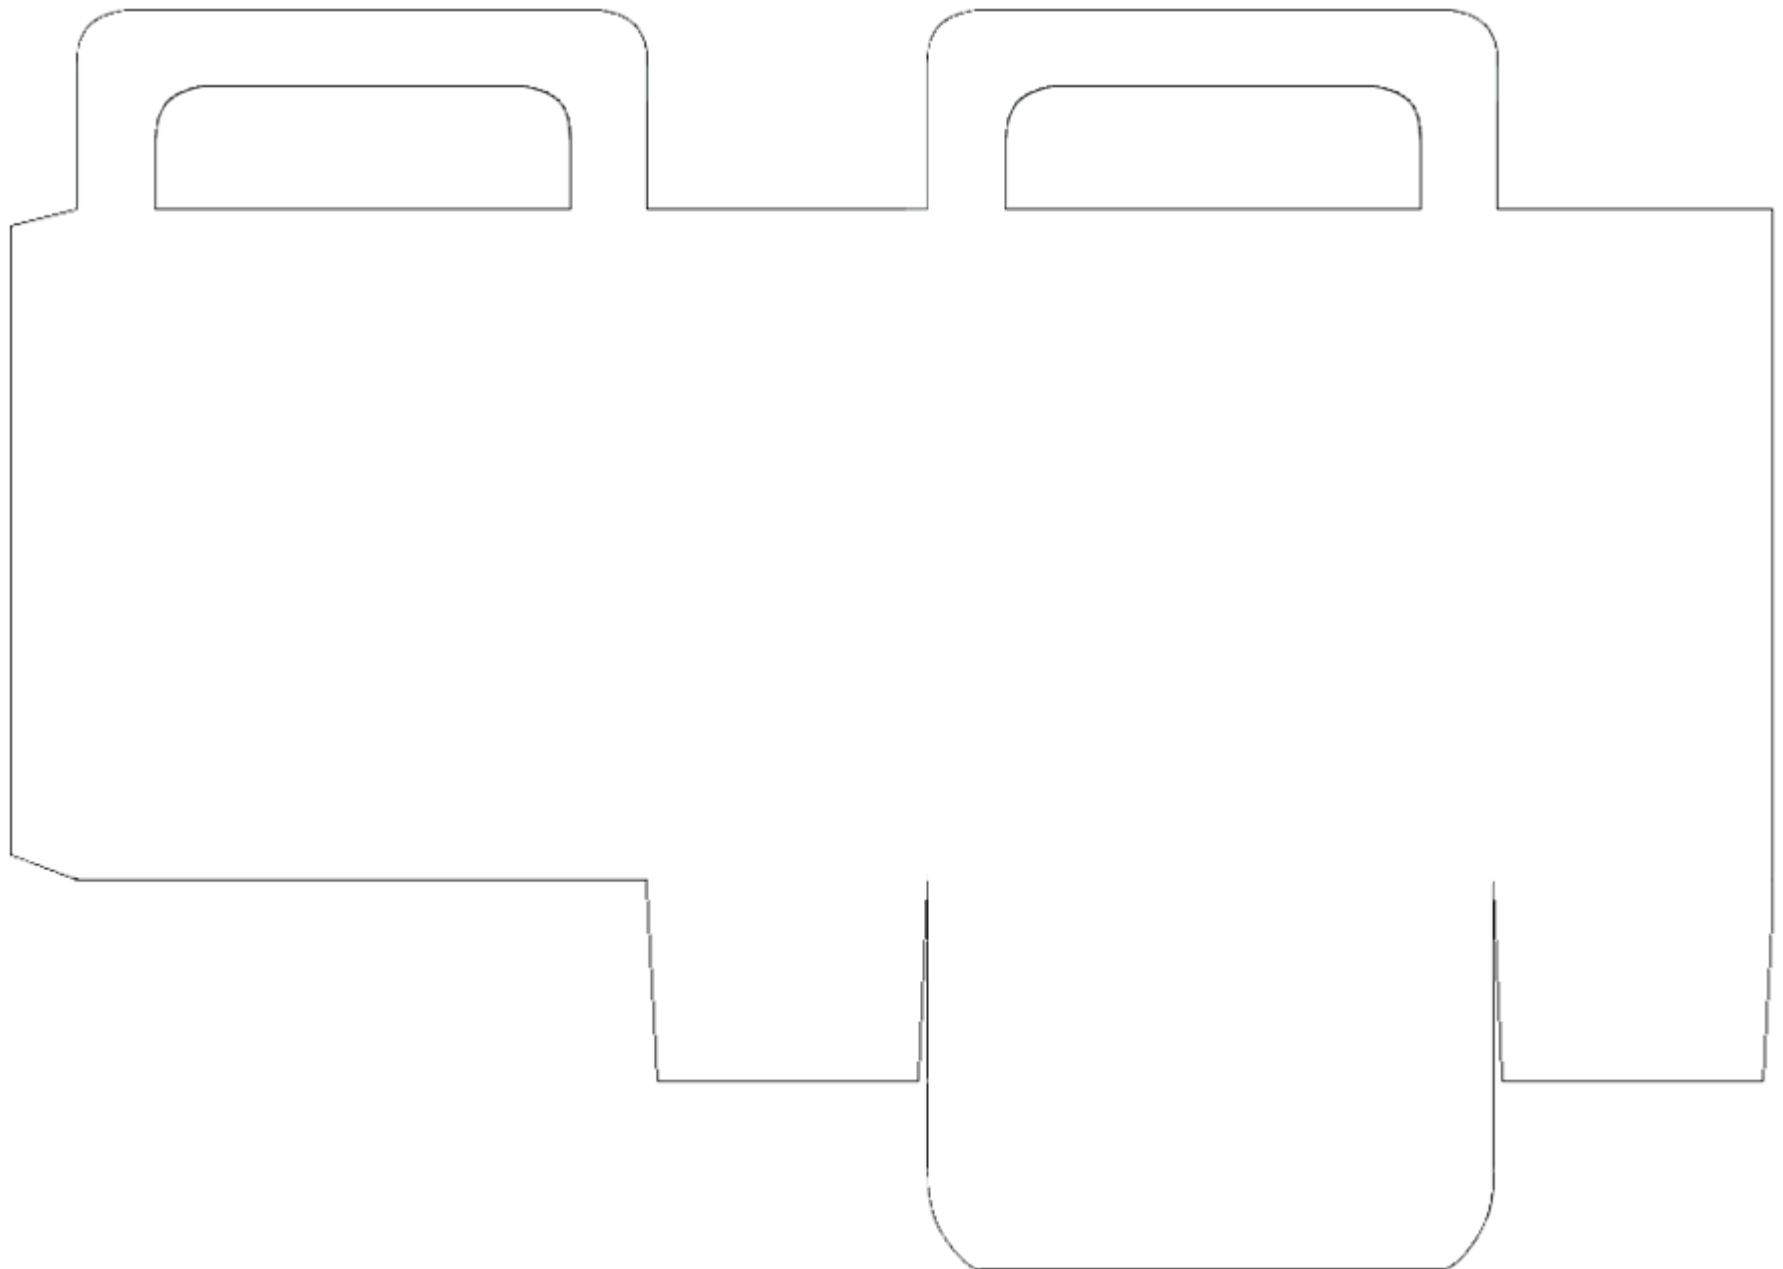

Cajita 1 OVALADA

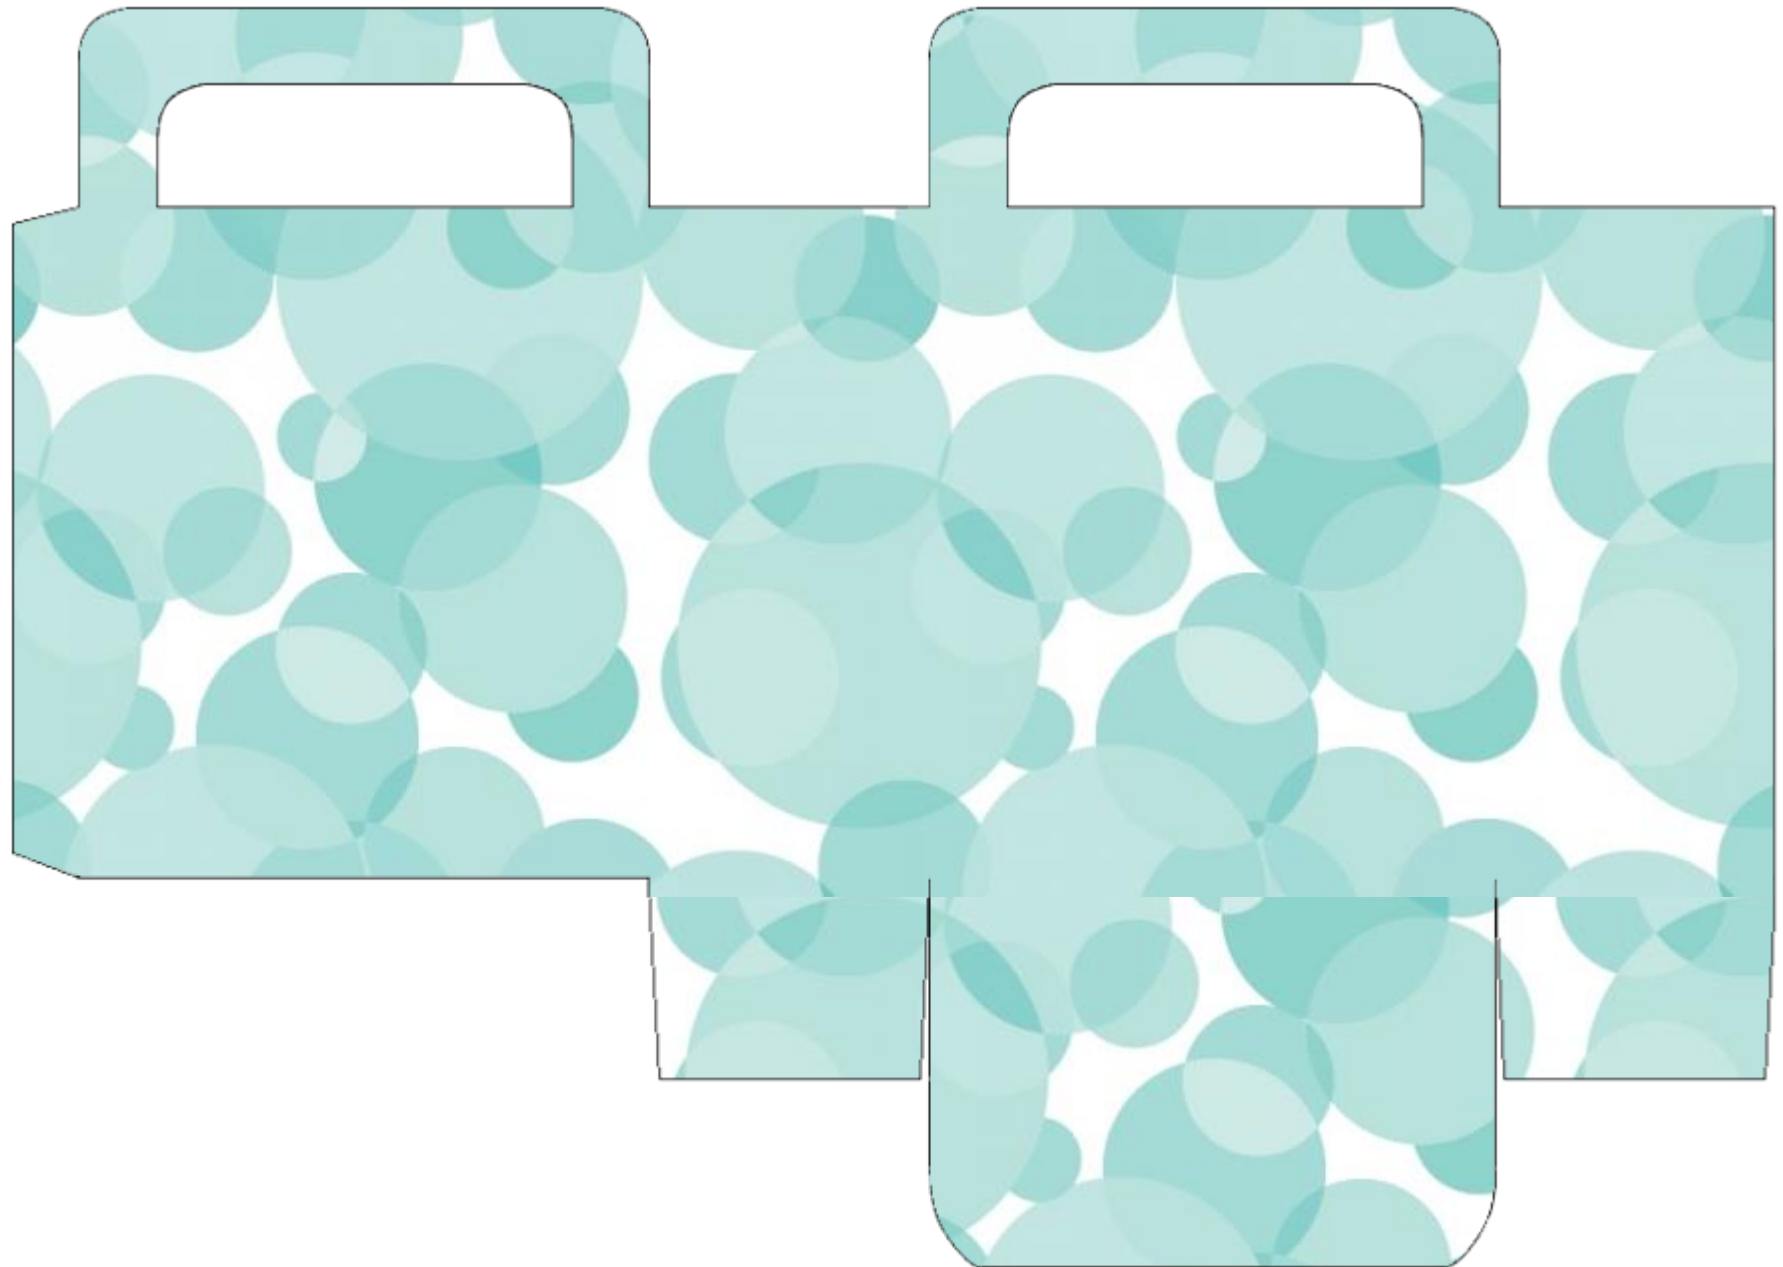

Cajita 1 con ASA

Doblar por líneas pespunteadas

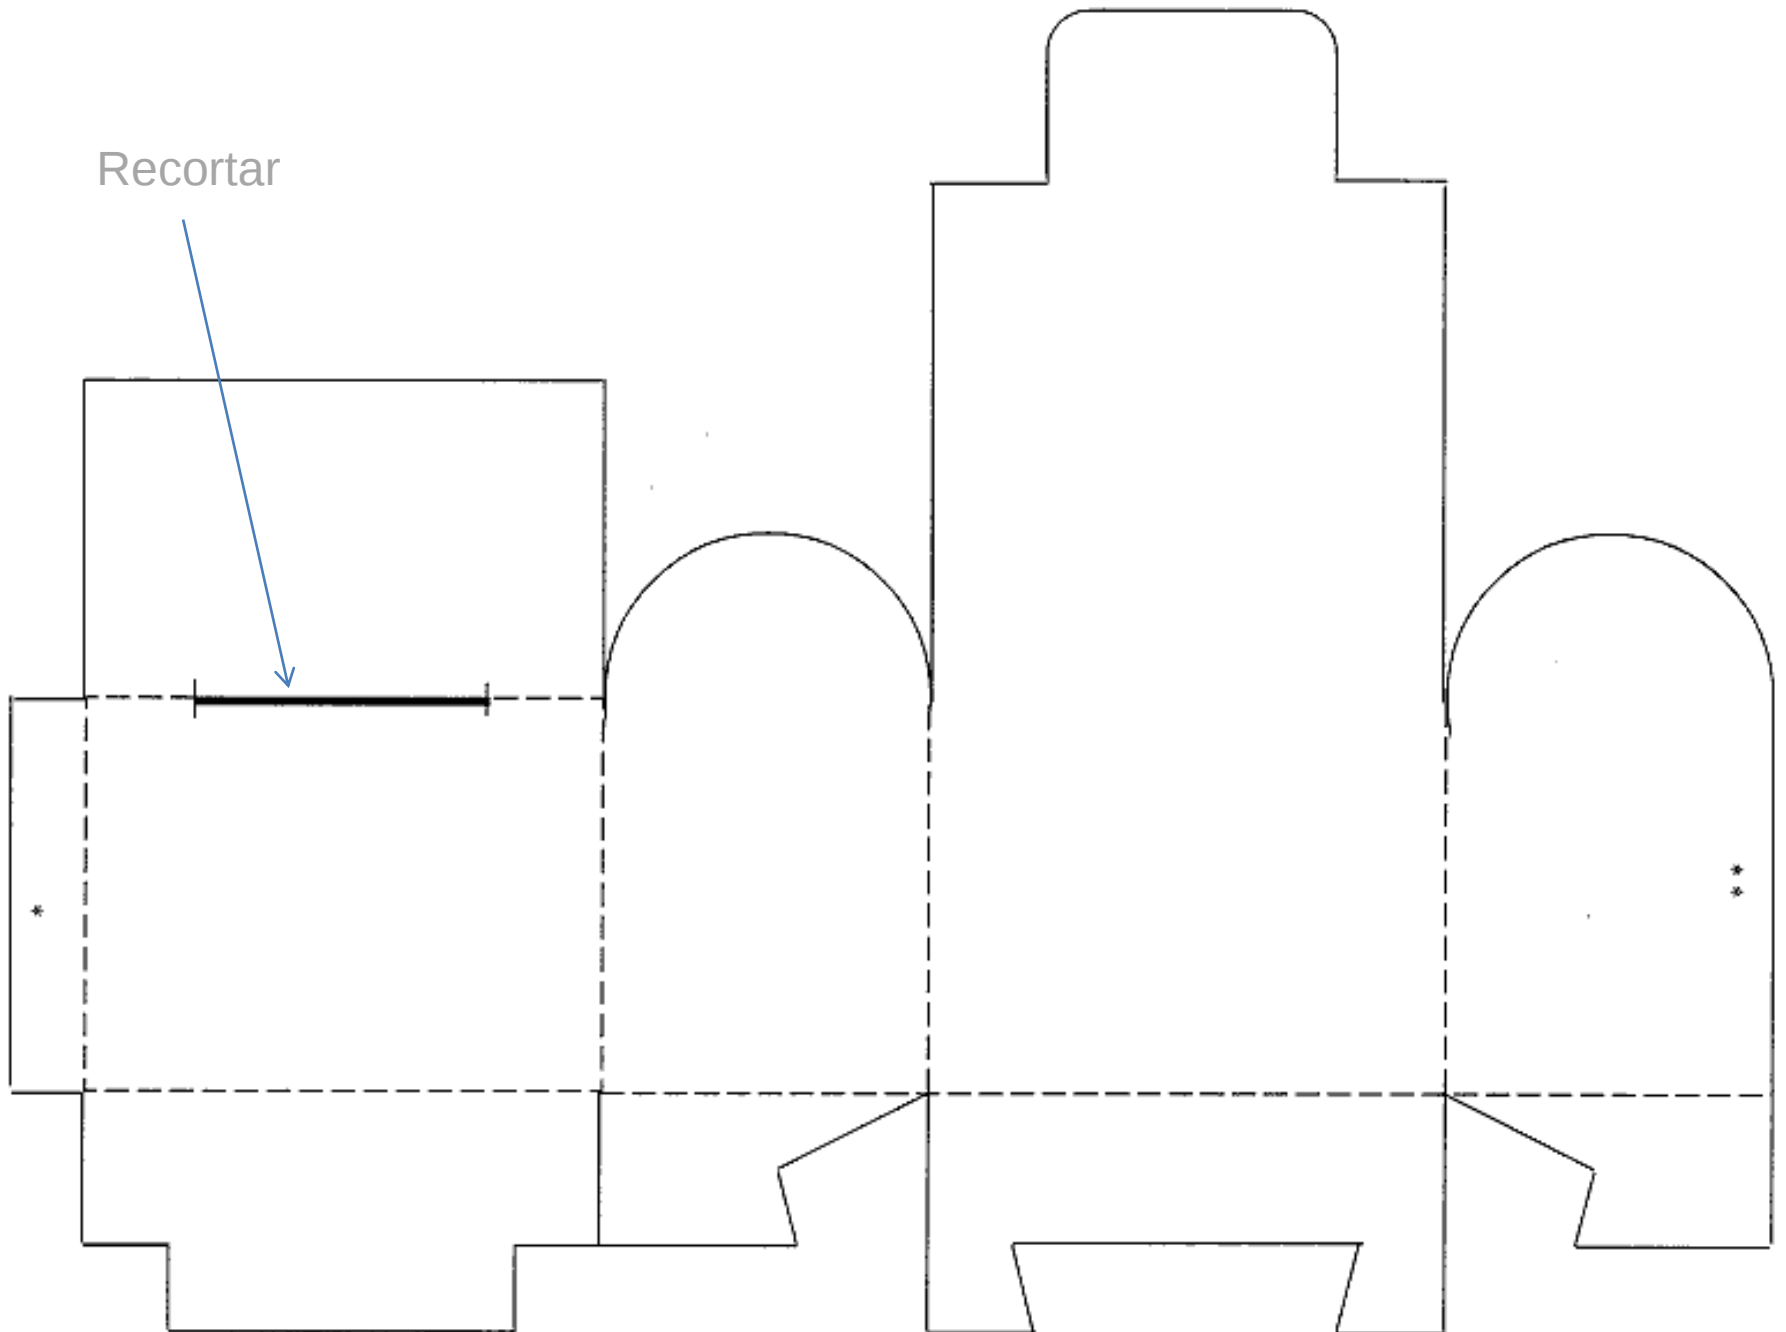

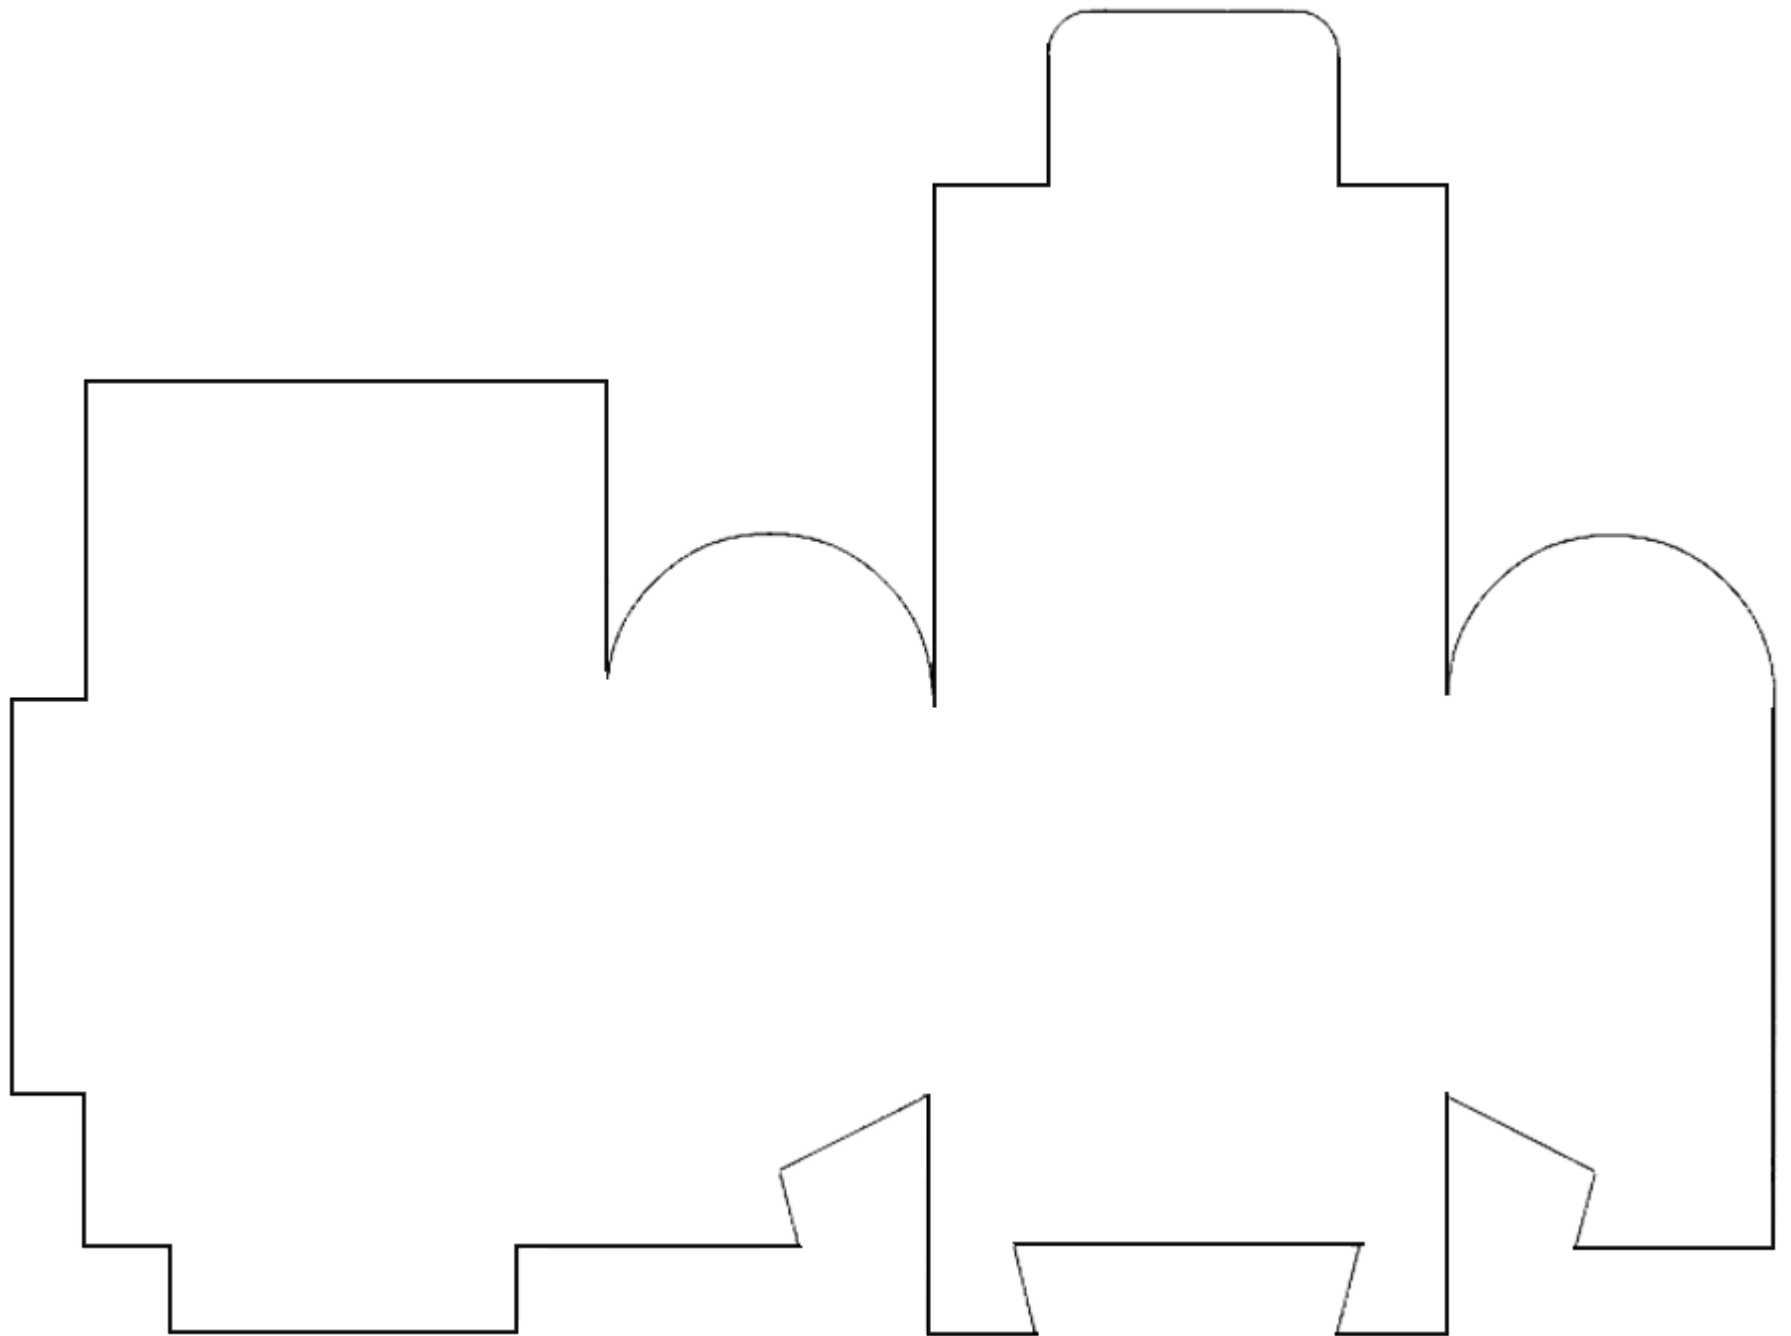

Cajita 1 Baul

Recortar
