 All About Me!

A fan of white envelopes is shown, fanned out from a central point. The envelopes are white with various markings. One envelope prominently features a red '1947' stamp. Another envelope has a blue circular postmark. The envelopes are set against a background of a green and white patterned surface.

A collection of colorful pencils and pens arranged in a fan shape, with labels for various subjects like Math, Science, and English.

BIOGRAFIA

MEHRA

Disier establecio la de la conse- uion de la m- ria, es decir materia permanece stante, la materia asumida por los activos es igual a los productos.

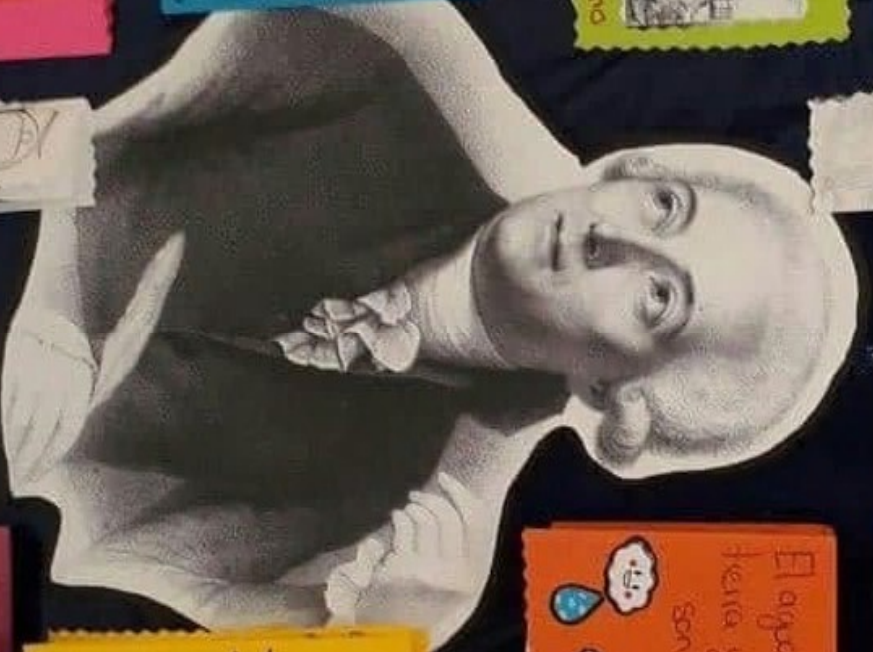

SEGUNDA

Es una marca porfiles de importantes. Placero de benesser para producir acero inventado en 1856. El perfeccionamiento de la dinamo. La invencion del motor de combustion interna.

Cientifico Frances condecorado padre de la Quimica moderna en Paris en el siglo de oro de la ciencia el 26 de agosto de 1743. El descubrimiento a los 17 años.

Estudio: Instituto Mazarron

1743

El agua, el aire, la tierra y el fuego son ELEMENTOS.

El Flogisto era, segun la teoria de la combustión, la parte de la materia que se libera al quemar. Se consideraba un elemento.

Muerte Injusta

1794

Salvado en la Pelusona

AGUA O

CONCLUSION

Es tambien llamada ley de conservacion de la masa. Es decir la materia no se crea ni se destruye solamente se transforma.

Este libro lo publico en el año de 1798, despues de su muerte.

La ley de conservacion de la masa es una de las leyes fundamentales de la fisica.
